

How To Support a Survivor: Moving from Helpless to Helpful

Approximately 1 in 5 women will be the victims of rape or attempted rape by the time they graduate from college. 10-20 of men will be survivors of some type of sexual assault at some point in their lives. If you love or care about a survivor, you may struggle with what you can say or do that is most helpful? What are some common pitfalls that survivors tell us are typically not helpful or even harmful? This workshop will provide you with resources, a place to ask questions, and to receive your own support.

The UConn Women's Center
Student Union 4th Floor
